

California Title Company Welcomes Industry Veteran Patrick Meza as Advisory Title Officer

FOR IMMEDIATE RELEASE
June 16th, 2026

BURBANK, Calif. — California Title Company is pleased to announce the addition of Patrick Meza as its new Advisory Title Officer, based at the company's corporate headquarters in Burbank, California.

Bringing more than 42 years of title industry experience, Meza joins California Title Company with a distinguished track record of leadership, technical expertise, and customer-focused service. Throughout his career, he has developed extensive knowledge in title examination, underwriting matters, complex real estate transactions, title problem resolution, and operational support.

"With 42 years of industry experience, Patrick brings a level of knowledge, leadership, and professionalism that will elevate our title operations and customer experience," said Bill Thomas, President of California Title Company.

In his role as Advisory Title Officer, Meza will serve as a key resource for the company's title operations team. He will provide guidance on complex title issues, assist staff with underwriting and examination matters, and help ensure California Title Company continues delivering the high level of service and expertise its customers have come to expect.

"I am excited to join California Title Company and work alongside such a talented team of professionals," said Meza. *"Throughout my career, I have been passionate about helping solve complex title issues and supporting others in delivering exceptional customer service. I look forward to sharing my experience, contributing to the company's continued success, and helping strengthen the resources available to our title staff and customers."*

Meza's depth of industry knowledge and practical experience make him a valuable addition to the organization. His ability to navigate challenging title matters and support operational excellence will further strengthen California Title Company's commitment to providing trusted title and escrow services throughout California.
